SUMMARY

AI/ML Engineer with hands-on experience building Generative AI systems, RAG pipelines, voice AI workflows, and data-driven web applications. Experienced with Python, FastAPI, Flask, AWS Bedrock, AWS Lex, OpenAI Whisper, Mistral LLM, n8n, Power BI, and full-stack deployment. Strong across data preprocessing, model training, API development, automation, cloud integration, and reporting. Actively seeking full-time AI/ML Engineer roles.

WORK EXPERIENCE

AI/ML Engineer Intern | May 2025 - Jun 2025

Technogen India Pvt. Ltd., Hyderabad

- Designed and deployed a serverless AI customer engagement platform on AWS using Lambda, Lex, Bedrock, and Amazon Connect.
- Built a pizza-ordering chatbot with AWS Lex and a knowledge base powered by AWS Bedrock.
- Created a ChatGPT-like chatbot using Claude in Bedrock and AWS Lambda for conversational customer support.
- Integrated automation and AI workflows to reduce manual support effort and improve response speed.

SDE Intern | Dec 2024 - Jan 2025

Bluestock Fintech

- Enhanced fintech platform modules using Python and JavaScript, improving transaction speed by 15%.
- Integrated MongoDB-backed data workflows, improving retrieval performance by 25%.
- Streamlined development workflows, reducing project delivery timelines by 10%.
- Collaborated on end-to-end product testing, debugging, and code validation.

SELECTED PROJECTS

Zara AI - AI Interview Platform [[GitHub: github.com/srikarpilla/Zara_AI](https://github.com/srikarpilla/Zara_AI)]

- Built a working full-stack AI interview prototype where candidates upload a resume PDF and job description.
- Parsed resumes, detected skills, and generated personalized interview questions using Mistral LLM.
- Implemented live voice answer transcription using OpenAI Whisper and generated scored PDF interview reports.
- Produced strengths, weaknesses, and hiring verdicts to support faster screening and skill-based evaluation.

Skin Disease Detection & Virtual Dermatologist [[Live Demo](#)]

- Trained a CNN classifier across 23 skin disease categories with 82%+ validation accuracy on 10,000+ labeled images.
- Deployed a FastAPI and Flask application for real-time predictions with sub-500ms response time.
- Integrated a RAG-powered virtual dermatologist chatbot using curated medical knowledge for AI-assisted consultations.

RAG Chatbot [[GitHub](#) | [Live Demo](#)]

- Built a document intelligence pipeline for PDFs, HTML, and text using NLP, TF-IDF, and Cohere generative AI.
- Delivered a Streamlit interface for document-based question answering and retrieval-augmented responses.

ADDITIONAL PROJECTS

Vehicle Registration Investor Dashboard [\[GitHub | Live Demo\]](#)

- Created a Streamlit dashboard for vehicle registration analytics with interactive filters and investor-focused insights.
- Improved exploration efficiency through UI/UX-focused controls and clear visual summaries.

Sales Performance & Revenue Intelligence Dashboard [\[GitHub\]](#)

- Developed a 4-page Power BI dashboard analyzing 10,000+ sales transactions with DAX and a star-schema model.
- Reduced manual reporting effort by approximately 3 hours per week through dynamic reporting.

Flight Booking Price Prediction [\[GitHub\]](#)

- Created an ML model to predict flight ticket prices using historical and real-time data.
- Built a user interface to estimate prices and visualize pricing trends.

Medical Decision Support System [\[GitHub\]](#)

- Built a healthcare ML prediction system with Seaborn analysis and Flask deployment for patient analysis.

Audio Emotion Classification [\[GitHub\]](#)

- Developed an ML pipeline for emotion classification from audio recordings with evaluation metrics.

YouTube Data Analysis Dashboard [\[GitHub\]](#)

- Built a Power BI and SQL analytics dashboard with predictive insights, filters, and drill-down visuals.

TECHNICAL SKILLS

Languages: Python, Java, C, SQL, JavaScript, HTML, CSS

AI / ML: Machine Learning, Deep Learning, CNN, LSTM, Transfer Learning, NLP, Computer Vision, Generative AI, LLMs, RAG, Prompt Engineering, Model Evaluation

Frameworks: TensorFlow, Keras, PyTorch, Scikit-learn, NumPy, Pandas, NLTK, Matplotlib, Seaborn

Cloud & APIs: AWS Bedrock, AWS Lambda, AWS Lex, Amazon Connect, S3, CloudFront, FastAPI, Flask, Twilio API

Automation & Data: n8n, Power BI, DAX, Streamlit, MongoDB, SQL, Data Visualization

Tools: Git, GitHub, OpenAI Whisper, Mistral LLM, Claude, Bolna.ai, Vercel, Azure

EDUCATION

B.Tech in Artificial Intelligence & Machine Learning | 2022 - 2026

Anil Neerukonda Institute of Technology and Sciences (ANITS) | CGPA: 8.36 / 10

ACHIEVEMENTS & CERTIFICATIONS

- EY Techathon 2025 - Round 2 Qualifier among 10,000+ participants in a national-level technology competition.
- Executive PG Certification in Artificial Intelligence, IIT Roorkee.
- Artificial Intelligence and Data Science Certification - iHub Divya Sampark, IIT Roorkee via Intellipaat.
- SQL Certification - Intellipaat Software Solutions.
